## WIND EXPERT (m/f/d)

Become a part of Deutsche WindGuard and shape the future energy supply with us. At our headquarters in Varel, you will support the Energy Yield Assessment Services department on a full-time basis (40 hours per week). Join us and work in an international team with one of the most experienced and comprehensive consultants in the wind energy industry.

### Your job responsibilities:

- Execution of site and energy yield assessment services
- Analysis of wind farm operational and wind measurement data
- Design and evaluation of wind measurement campaigns
- Enhancement of methodologies and templates within the above-mentioned fields
- Responsibility for international projects and customers

### Your Profile:

- University degree in one of the following technical/scientific study areas: engineering, information technology, physics or similar qualification
- Project management skills
- Solid IT skills required, including work experience with MS Office applications and standard wind resource assessment software
- Experience in designing solutions and templates utilizing scripting or programming languages, preferably Python
- Self-employed, well structured, customer-oriented
- Good knowledge of written and spoken English
- Experience with remote sensing data and/or on- and offshore wind data analysis is beneficial
- Work experience in several of the following fields desired: wind energy project development, wind resource and energy assessment, operational data assessment

# Join us!

## We offer you:

- An exciting role with one of the most experienced and comprehensive consultants in the wind energy industry
- The opportunity to contribute your own ideas for the wind energy of tomorrow in an owner-managed, medium-sized company characterized by flat hierarchies
- A permanent employment contract
- Intensive training and a positive working environment in a committed and cooperative team
- Opportunity to participate in the Hansefit sports program for employees
- Subsidy for the company pension scheme

## About Deutsche WindGuard Consulting:

Deutsche WindGuard Consulting GmbH is part of the WindGuard group.
