## LOAD MEASUREMENT EXPERT (m/f/d)

Our “Load Measurement” team is looking for support on a full-time basis at the earliest possible date.

### Your job responsibilities:

- Plan and execute load measurements on wind turbines
- Coordinate between project participants internally and externally
- Set up measurement equipment at test turbines
- Analyse collected data and prepare test reports
- As a contact person for our customers, advise them on all questions relating to these topics
- Maintain and improve our internal tool chain for load measurements

### Your profile:

- Experienced in load measurements on wind turbines according to IEC 61400-13
- Successfully completed a university degree in natural sciences or engineering, preferably mechanical engineering, electrical engineering or similar
- Solid command of written and spoken English
- Proficient in the Microsoft Office Suite
- Experience in scripting or programming languages (Matlab, Python, FAMOS) desired
- Hold a valid driver’s license

### We offer you:

- A permanent employment contract
- Flexible working hours and the possibility of mobile working
- Modern technical equipment
- Further training in the form of interesting courses
- Participation in the Hansefit programme
- Use of corporate benefits - an APP with many great discounts
- Company bike leasing
- Contribution to the company pension scheme

# DEUTSCHE WINDGUARD

## Deutsche WindGuard – The Wind Professionals

Founded in 2000, Deutsche WindGuard is today one of the world’s most experienced and comprehensive service providers in the wind energy industry - onshore and offshore.

In a complex energy market, Deutsche WindGuard is committed to providing unbiased and manufacturer-independent consulting and comprehensive scientific, technical, and operational services. Our core business activities include:

- Consulting
- Site Assessments
- Measurements
- Technical Inspections and Management
- Wind Tunnel Centre
- Offshore
- Certification

With the headquarters in Varel, Germany, and subsidiaries in Germany, the United States, China and India, Deutsche WindGuard employs more than 190 experienced experts.

The WindGuard universe with more than 50 services and a holistic network with a scientific core offers you access to a broad spectrum of expertise, know-how and experience.

## Are you interested?

Then Axel Albers is looking forward to receiving your application.

Please send your comprehensive resume, including your salary expectation, preferably in only one PDF to: [application@windguard.de](mailto:application@windguard.de)
